

...a new day in
finite element analysis is here...

NEiFusion
CAE Simulation Software

The fusion of Nastran FEA + 3D solid parametric CAD technology

Mention the Desktop Engineering Promotion when you contact NEi on pricing.

- A complete analysis and simulation package
- Assemblies with automated surface contact
- Wide array of analysis types with no limit on model size
- Composites laminate support
- Speed & accuracy of Nastran
- Extensive CAD/FEA import/export compatibility
