

SERIOUS FEA

Structural failure is simply unacceptable when you're pulling 8G's at 600 mph. Or depending on a spinal implant. Or the mast of an America's Cup Contender. This is why developers of the most critical structures depend on NE/NASTRAN for FEA analysis. Along with proven power and accuracy, NE/NASTRAN is one of the most complete, easiest-to-use packages available.

- Advanced PCGLSS Solver Technology
- Next Generation Lanczos Eigensolver
- Industry Unique NE/Nastran Editor
- Complete NASTRAN Compatibility
- Affordable, Customized Solutions
- Windows & Linux Packages Available

NE/NASTRAN @work
finite element analysis
