Why Innovative Companies Are Switching Their FEA to NEiNastran...

America's Cup contenders are using NEiNastran to design the fastest racing yacht ever built.

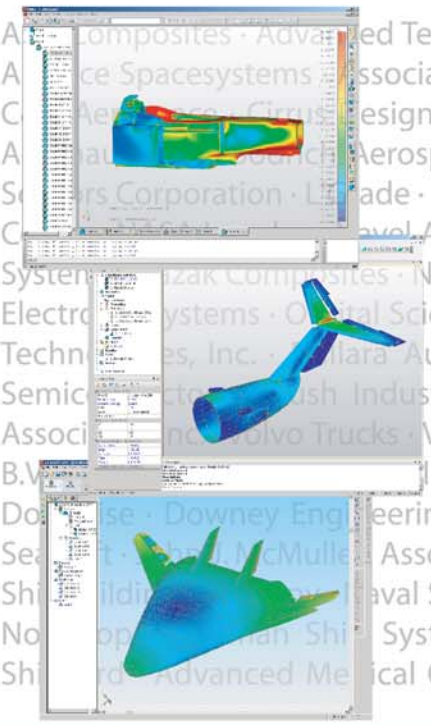
Major naval contractors are using NEiNastran to build the battle ships and aircraft carriers of tomorrow.

Medical design firms are using NEiNastran to engineer lens replacements for the human eye that will restore sight.

Aerospace companies are using NEiNastran to build space ships that will take you into space.

Formula 1 racecar manufacturers are using NEiNastran to optimize their designs and take them to the winner's circle.

...We deliver value.



NEiNastran - Finite Element Analysis

Turn your ideas into reality with engineering software for design, analysis, and simulation.
